At the evening drawing school rooms in the Matheson school building, 2 East-ern avenue, to-morrow and Saturday, Oct. 4, are the only evenings on which students may enroll in the regular courses from 6:30 to 8:30. Remember that, as was announced plainly in last Saturday's Times, Sept. 27, sessions begin Tuesday, Oct. 7, at 6:30 p. m. and to avoid loss of time two months' tuition is to be paid in advance when registration takes place. Several students have registered in advance to be sure of a place. As 75 is the limit we can accommodate in one session, or a total of 148 in two groups, those wishing to take up studies better come early.

The Ford car bearing the number 110237 U. S. A., of the recruiting party leaving Barre this morning, collided with the Oldsmobile bearing number 10855, of George Ralph of Barre at the corner of Elm and Jefferson streets near Dodge's jewelry shop. Mr. Ralph was driving up Elm street from North Main street when he saw that an accident was inevitable unless he swung to the left. Putting on his brakes and swinging to the left he struck the curb and drove one wheel onto the sidewalk. The Ford coming out of Jefferson street and towards the curb to pass to the right of the Ralph car struck the front end of the Oldsmobile, jamming the left fender of the Ford and springing the front axle of the Ralph car but not putting it out of running condition. Both cars were driving at a moderate speed and barely averted running into the telegraph pole near the place of the collision. There was a horse hitched to the pole but it did not seem frightened though the Ford came near striking it.

Card of Thanks.

We wish to express our heartfelt thanks and appreciation to our many friends and neighbors for the many kind deeds shown during our recent bereavement and for the beautiful floral tributes.

Alfred S. Parkhurst,
Mr. and Mrs. Frank Colvin and family,
Mr. and Mrs. John Summers and family.

MONTPELIER

The next meeting of the board of control will take place Oct. 17, when the board will have under consideration the repairing, storage and transportation of the trucks which the federal government recently consigned to Vermont. It is estimated that it will cost about \$90,000 to put the trucks in working condition, with a central plant in which to make the repairs.

Archie Fisher was arrested Wednesday afternoon by Deputy Sheriff C. A. Smith. He was brought before Judge E. M. Harvey and released on bail. He was charged with desertion of his wife, who has been spending the most of her time in Montpelier this week. It is understood that after the release on bail occurred, that Fisher and his wife went back to their farm to live again.

William Lathrop moved a tractor engine, for lumbering purposes, from Jones Bros. in Barre to Middlesex, Wednesday afternoon. He obtained permission from members of the city council in Montpelier to take the engine over the Red Arch bridge before he started on the trip.

E. A. Witham received a surprise this week when he had completed plans to use the city truck in drawing wood from the city's property in Berlin to the city. He expected to draw about three cords to the load, but the selectmen of that town would not permit the truck to run over the bridges on the road to Berlin pond, the road, if drawn, will have to be drawn by horse power.

A meeting of the general committee connected with the local management of affairs for the state teachers' convention, which takes place next week, met in the city council chamber Wednesday afternoon and went over the details of the matter. These are well completed with a few minor matters left to be handled. There is a need for more rooms than the people of the city have already announced available to take care of the teachers.

Owing to the large number of persons who will be here next week, the hotels and boarding houses are using considerable care in agreeing to handle beyond their means, the room proposition being the most difficult. The Long trial will commence Tuesday and will bring a corps of detectives and newspaper men from Boston as well as many extra jury-men for the first of the week. Supreme court convenes at 10 o'clock Tuesday morning, bringing with that the justices and a large number of attorneys. The state teachers' convention commences its sessions Wednesday afternoon of next week, continuing through the rest of the week, so that the combination will well fill up rooming quarters in the city. The bar examinations also occur next week.

Mrs. Carroll Pitkin has completed her duties in the agricultural office and has gone to the offices of the Lane Manufacturing company, where she will commence work.

Amos Eaton has returned from Springfield, having completed the removal of the exhibit which was shown at the Springfield exposition.

Edward McJoff of Rutland and I. M. Frost were in the city to-day.

The northbound morning train this morning was about six hours late, due to the derailment of two cars in a freight train near Sharon. Station Agent J. E. Galleher was master of ceremonies at Montpelier Junction and carried a breakfast to those persons on the train when the train arrived at that place, which was some after 10 o'clock. Conductor Sullivan of the branch freight train brought the passengers on the belated train to Montpelier in a coach from this city. The northbound morning train was also late, due to the delay of the train.

Mr. and Mrs. P. H. Going have returned from their wedding trip and have resumed employment in the agricultural office.

T. R. Merrill, leader of the Montpelier Military band, this morning announced that no concert will take place Sunday afternoon, owing to its conflict with other matters.

Elmer P. Birkett of Ferrisburgh has settled his accounts as administrator of the estate of Mary J. Goss and Aaron Goss, late of Moretown. L. H. Wells of Middlesex has settled his account of the estate of Carlos S. Bingham, late of Middlesex.

No date has been fixed as yet in the trial of Ernest Cameron of Fayston, charged with not sending his children to school. This is the third case developing out of a school trouble in that town. First, Cameron pleaded not guilty before a justice. He was found guilty of not sending his children to school and took an appeal to Montpelier city court. That case still stands on the docket. Next Mrs. Cameron was brought into Montpelier city court, charged with breach of peace, resulting from some trouble connected with the school. That case still stands for trial, and this week in a new complaint, Mr. Cameron was brought into court on the charge of not sending his children to school, and the authorities in Mad River valley are anxious to have that case tried this week; but the court and state's attorney are alike busy, so that it seemed impossible to try the case.
